Career Objective

To pursue a challenging and growth-oriented career in full-stack web development, where I can leverage my technical skills to build scalable, user-centric digital solutions. I aim to continuously evolve with emerging technologies and contribute meaningfully to innovative projects, while establishing myself as a reliable and impactful professional in the software development industry.

Professional Experience

Assistant Instructor

Vocational Training Centre 

08/2025 – 11/2025
Itahari, Nepal

Assisted in conducting the Basic Computer Operator course by providing training and guidance to students on fundamental computer skills and software usage while developing strong communication, teamwork, and technical problem-solving abilities and gaining professional experience in the vocational training and government sector environment.

Front-End Developer Intern

Midas Health Service 

06/2025 – 09/2025
Kathmandu, Nepal

Worked as a Front-End Developer Intern in the IT & Innovation Department, assisting in the design and development of responsive web applications using HTML, CSS, JavaScript, React, and modern UI technologies. Collaborated with designers and developers to build reusable UI components, improve user experience, fix interface issues, and optimize application performance.

Technical Projects

Khana Sathi [!\[\]\(e3275251d0893157c3584e20c81dc3ba_img.jpg\)](#)

Khana Sathi – Food Ordering & Delivery Platform

Developed Khana Sathi, a modern food ordering and delivery platform for Nepal with secure authentication, digital payments, and multi-restaurant ordering features. Implemented frontend/backend functionalities and followed Agile methodologies to enhance user experience and delivery efficiency.

Food Express [!\[\]\(235bfe13ebf007ce2eea9e689707fac7_img.jpg\)](#)

Built a food ordering and tracking system using Java and MySQL, with features like user authentication, menu management, order tracking, and more.

JournalSathi | ASP.NET Core (.NET) [!\[\]\(83bbbd261710c59db0214aa27b2edc0d_img.jpg\)](#)

Smart Digital Journaling & Productivity

JournalSathi is a modern digital journaling platform that helps users record thoughts, track moods, and manage daily tasks efficiently. It provides a secure and user-friendly experience focused on productivity and personal well-being.

AutoParts Hub [!\[\]\(a73c1962d20a39dd8fd6a060ae69693f_img.jpg\)](#)

Smart Vehicle Parts Management and E-Commerce Platform

Developed a full-stack automotive parts management and e-commerce platform using **ASP.NET Core Web API, Entity Framework Core, Next.js, PostgreSQL, and Tailwind CSS**. Implemented inventory management, role-based access control, product catalog management, order processing, and customer account features to streamline vehicle parts sales and operations.

Transferable Skills

- Problem-Solving
- Documentation
- Agile Collaboration
- Analytical Thinking
